

SMART PHONE CONTROL KIT

An open garage is an open invitation for unwanted entry so it is valuable to know that you can control your door while away from home. The Smartphone control kit allows you to monitor and control your doors while away from home with a compatible smartphone*.

- Available for rolling and sectional style garage doors
- A silent alarm: Real-time notifications alerting you whenever the door is operated, opened for an extended period of time or whenever a service is required
- Customisation: Partial opening modes to restricting door access times
- Includes an activity log to view usage history
- Total control: Operate the garage door from your phone without a remote
- Multiple devices in multiple locations: Can control multiple garage doors and compatible gates in more than one location
- Smart home compatible

**Smartphone not included*
